Cc: Service List

Div I-21 Please state whether the 8.57 percent retiree health percentage for FY

2008 is known and definite. (For example, is the percentage subject to change by the Rhode Island legislature due to fiscal, budget or other

considerations?)

Answer: Both Ms. Foster and I attended a seminar presented by Rosemary Booth

Gallogly, Executive Director/Budget Office of the State of Rhode Island. The 8.57 percent retiree health insurance rate was provided by her to those in attendance. NBC does not know if the rate will change by FY 2008 but

is hopeful that it will be decreased. Until notified differently NBC

believes that the 8.57% is the best available information.
